Peter,

SITLA concurs with the financial guarantee amount calculated for this project.

Thanks!

Hi Jerry,

Here's a request for SITLA concurrence with the new reclamation bond amount that we plan to require for Clay Holman's A New Dig Mine (trilobites). He recently provided a replacement (updated) NOI. Please see the bond calculation below.

FYI, he is operating under a modified cessation order that allows him to mine within the existing disturbance, as long as he finishes regrading (he has finished most of it) and posts reclamation surety by March 14th.

Small Mine Bond Calculation Worksheet (3-year Bond Adjustment Period)			
Item	Qty	Unit Cost	Total Cost
1st Acre Disturbance	1	\$8,000.00	\$8,000.00
Add'l Acres Disturbance	0	\$5,000.00	\$0.00
Regraded Acres (Revegetation)	3	\$1,000.00	\$3,000.00
Portal Closure	0	\$2,000.00	\$0.00
Additional Mob/de-mob	0	\$1,500.00	\$0.00
TOTAL			\$11,000.00

Can you concur with an amount of \$11,000?

This is excessive in reality, and we may end up doing a site specific calculation, but if so, I'll let you know.

Peter
